EDITORIAL COMMENT

As we mark the end of the fourth quarter, we pause to acknowledge the remarkable progress that has been made. This edition of Rea Tswelela highlights key achievements, including the appointment of Dr. Lerato Masenya. The Hospital developments demonstrate our unwavering commitment to delivering exceptional patient care and fostering a supportive work environment. We are proud to recognize the tireless efforts of our staff members, who have worked diligently to drive these initiatives forward.

As we step into a new financial year, we are energized by the prospect of fresh challenges and opportunities. We celebrate the successes of our staff members, both personally and professionally, and welcome new talent to our team. Our newlywed staff members, appointed nurses, and Operation Manager for Ward 2, Mr J.S Maringa embody the spirit of our organization, and we wish them all the best in their new endeavors. We also extend our warmest congratulations to our doctors who have recently completed their qualifications, a testament to their hard work and dedication to their craft.

As we look to the future, we remain committed to our core values of excellence, compassion, and kindness. We recognize that our work extends far beyond the provision of medical care, and that every interaction with our patients and their families has the potential to make a lasting impact. We are grateful for the dedication and expertise of our staff, and we look forward to continued excellence and innovation in the year ahead. With a shared vision and a collective commitment to our mission, we are confident that together, we will achieve great things and make a real difference in the lives of those we serve.

MESSAGE FOM THE CEO

Greetings to all staff members, as we bring the fourth quarter to a close, the Executive Management would like to take a moment to reflect on our accomplishments and express gratitude to each and every one of you for your hard work and dedication.

This edition of Rea Tswelela shares several significant updates that demonstrate our commitment to providing exceptional patient care and supporting our staff members. One of the notable developments is the appointment of Dr. Lerato Masenya as our second psychiatrist. Dr. Masenya brings a wealth of experience and expertise to our team, marking a significant milestone in our efforts to expand mental health services and provide comprehensive care to patients.

In addition with regard to the appointment of Dr. Masenya's , we are excited that soon we will be launching our Psychiatric Forensic Services Unit. This new unit will provide specialized care and support to patients requiring forensic psychiatric services, demonstrating our commitment to innovation and excellence in patient care. The team members who worked tirelessly to make this initiative a reality are commended for their efforts.

On a more personal note, we extend a warm welcome to our newlywed staff members, including appointed nurses and the Operation Manager for Ward 2. We also congratulate our doctors who have recently completed their qualifications, acknowledging their hard work and dedication to their craft.

The enthusiasm with which staff members celebrated Valentine's Day and Condom Week was inspiring, serving as a reminder of the importance of self-care, relationships, and health awareness. As we welcome new staff members, we bid farewell to those moving on to new challenges, extending gratitude to Sr. T Motsi, who was serving in Quality Department,. We wish her all the best in her future endeavors.

As we close the fourth quarter and look forward to the new financial year, we leave you with a message of motivation. Our work is not just about providing medical care; it is about making a difference in the lives of patients and their families. It is about being part of a team dedicated to excellence, compassion, and kindness.

As we embark on a new financial year, we are excited to see what the future holds for our hospital. We are confident that together, we will continue to achieve great things and make a real difference in the lives of patients.

Thank you, and let us look forward to a bright and successful future together.

Mrs M.E Mpolokeng
Chief Executive officer

A New Year Message from the CEO: Staff Roadshow and Greetings

The executive management together with the staff members of the Outpatients department during CEO's roadshow.

The Executive Management of Witrand Hospital embarked on a staff roadshow, visiting various departments to extend heartfelt greetings and gratitude to staff members for their hard work and dedication.

The roadshow was a wonderful opportunity for staff to interact with the hospital's leadership and feel appreciated for their contributions.

From various wards to Clinical Department and from to Administration department House keeping department, the Executive

The roadshow was a sincere expression of appreciation and recognition, and a testament to Witrand Hospital's commitment to its core values of compassion, excellence, and kindness.

Bellow is some of the photos of staff members in different departments:

The executive management together with the staff members of Ward 4.

The executive management together with the staff members of Ward 8.

The executive management together with the staff members of Ward 9.

The executive management together with the staff members of Activity center.

Welcoming Dr L Masenya as the second new Psychiatrist Specialist.

An eminent Psychiatrist, Dr Lerato Masenya who recently joint Witrand Specialised Hospital.

Witrand Specialized Hospital has made a significant stride in enhancing its psychiatric services with the recent appointment of a specialist psychiatrist Dr. Lerato Masenya.

This strategic recruitment drive underscores the hospital's commitment to providing comprehensive mental health care to its community. Dr. Lerato Masenya hails from Ga-Dikgale village and nurtured in Mankweng, Limpopo Province, Dr. Masenya has cultivated a distinguished career driven by her deep passion for psychiatry.

She is a Fellow of the College of Psychiatrists of South Africa and boasts an impressive academic and professional background. She earned her Bachelor of Medicine and Bachelor of Surgery Degree from the University of Cape Town and later completed her Master of Medicine in Psychiatry at the University of the Witwatersrand.

Her interest in neuro-stimulation has been recognized through her publication in the South African Journal of Psychiatry.

Dr. Masenya's passion for psychiatry extends beyond her clinical work. She is actively involved in developing an outpatient forensic psychiatry department at Witrand Hospital and coordinates psychiatry student rotations from the University of the Witwatersrand in the North West Province.

Furthermore, she contributes to the development of the psychiatry curriculum at North West University's medical school, shaping the future of mental health professionals.

Dr. Masenya emphasized the distinction between forensic psychiatry and general psychiatry: “Forensic psychiatry involves evaluating individuals within a legal context, serving as a stakeholder in the judicial system, rather than forming a therapeutic relationship with the patient." She highlighted the importance of forensic psychiatry in assessing individuals' competency to stand trial, criminal responsibility, and risk of violence. sentence deleted

“As a psychiatrist in clinical practice, I work with patients who have a wide range of mental health conditions, from common disorders like depression and anxiety to more complex conditions like schizophrenia and bipolar disorder. I conduct assessments to diagnose and treat mental health conditions, and thus improving the quality of life of patients and their families”. Hence, you find general psychiatrists often work in hospitals, clinics, private practices, and community mental health centers.

For referral to our service ideally the patient should firstly go to the clinic and or acute hospital to be assets by a general practitioner and if severe and need specialist input, the patient will be referred to Witrand Hospital to see the specialist psychiatrist. The idea is to get help before the condition becomes worse.
The appointment of Dr. Masenya marks a significant milestone in Witrand Specialized Hospital’s strategic plan to enhance its psychiatric services. According to Mrs. Moipone Mpolokeng, CEO of Witrand Specialized Hospital.

"This recruitment drive demonstrates our commitment to providing holistic psychiatric patient-centered care’. ‘We are breaking barriers in recruiting scarce skills, and Dr. Masenya's expertise will be instrumental in expanding our services."
Outside her professional pursuits, Dr. Masenya leads an active lifestyle, enjoying CrossFit, hiking, and camping. She has summited notable peaks, including Mafadi Peak in the Drakensberg and Mount Kilimanjaro in Tanzania.

A Tribute to Mrs. Thereza Motsi: A Beacon of Kindness and Compassion

Mrs Thereza Motsi
Professional Nurse and Quality Assurance Specialist.

We honor a remarkable individual who has left an indelible mark on the lives of many at Witrand Specialized Hospital. With a career spanning multiple roles, Mrs. Motsi's dedication, compassion, and kindness have touched countless lives, both within and beyond the hospital walls.

Mrs. Motsi's journey at Witrand began as a physiotherapist, and her passion for healing and helping others led her to pursue further studies in nursing. As a professional nurse, she brought her expertise to the Quality Assurance Department, where she played a vital role in ensuring the highest standards of care. Her commitment to excellence earned her recognition as a Complaints Commiserate Member and Chairperson of the Events Committee.

Beyond her technical skills, Mrs. Motsi was a gifted motivational speaker, spiritual leader, and mentor. Her presence had a calming effect, and her words of wisdom stirred emotions in the right direction. She was a source of comfort and strength, always willing to lend a listening ear or offer a shoulder to cry on. Her character and values spoke for themselves, reflecting her kind, positive, and generous spirit.

As we say goodbye to Mrs. Motsi, we celebrate her legacy of love, service, and compassion. Her impact on the lives of her colleagues, patients, and the broader community will be felt for years to come. We are grateful for the time she spent with us, and we wish her all the best in her future endeavors.

May your journey ahead be filled with joy, peace, and continued opportunities to touch lives in meaningful ways. You will be deeply missed, but your memory will live on in our hearts.

The Senior Manager Medical service, Dr Isaac Wana along with the Hospital CEO, Mrs M.E Mpolokeng bid Mrs T Motsi farewell.

Colleagues from Quality Department, Ward 3, Occupational Health & Safety Department and Ward 11 bid Mrs T Motsi farewell.

Colleagues from Information Management and HR bid Mrs T Motsi farewell.

"WE'RE GRATFUL FOR THE TIME WE HAD YOU ON OUR TEAM AND WISH YOU ALL THE BEST IN YOUR FUTURE ENDEVORS."

HOSPITAL STAFF CELEBRATING VALETINE'S DAY PLUS CONDOM AWARENESS WITH STYLE

Colleagues from HR Department and Registry Celebrating Valentine's day and Condom week.

Witrand Hospital marked a memorable February 14th, 2025, by celebrating both Valentine's Day and Condom Week. Embracing the festive spirit, staff members across various departments donned red, pink, and white attire, adding a splash of color to the hospital's corridors.

To encourage teamwork, each department was encouraged to organize their own in-house celebrations, making the day a joyous and inclusive experience for all.

The event was a wonderful opportunity for staff members to bond and have fun together, while also promoting a valuable cause.

The Importance of Condom Week

Condom Week is an initiative that aims to promote safe sex practices, raise awareness about sexual health, and encourage responsible behavior. By highlighting the importance of condom use, it seeks to prevent sexually transmitted infections (STIs) and unintended pregnancies. The initiative also works to reduce stigma around sexual health discussions, empowering individuals to make informed choices about their well-being. rating.

The goal is to support individuals in protecting their health and making informed decisions about their relationships and sexual activity.

As Witrand Hospital celebrated Condom Week and Valentine's Day, the message was clear: love and health go hand in hand. By prioritizing safe sex practices and promoting sexual health awareness, we can build stronger, healthier relationships – and that's a gift worth celeb

A CALL TO COLLEGIAL SUPPORT AND TEAMWORK : AN IMPORTANT MATTER IN QUALITY AND SAFETY

Today, I would like to share some insights on the importance of teamwork, and the importance of your contribution to someone else's well being in the workplace, especial in the hospital environment.

Take sometime and reflect with me, have you made a positive remark to your colleague today, have you recognised that good looking outfit, have you noticed that quality that stands out about him, have you recognised his efforts which saved the whole team, have you notice his unique values that benefit the department?

Take sometime and reflect on how you greet your colleagues: check how you ask how are you?, Do you ask it expecting a response, or do you ask it in a rushed manner only expecting everyone to say "I am fine and you", which makes someone think, "don't give details". Could you ask how are you in a different manner with your close colleagues, to establish how they are?

Lets take sometime today, and take a pause, how is your team wellness?. How well is your team? Physical wellness, psychological wellness, how fit is your team to deliver services today?

What can you contribute today to your colleague's ability to bounce back, what positive inputs can you share with your team.

It is very important to support one another as frontline healthcare providers. As you know, frontline healthcare providers are the face of the health system, and they take responsibility to welcome healthcare users and make them feel comfortable to use our hospitals. This means they have been automated to smile for healing, not because they are fine. Someone should ask them how they are, for the purpose of supporting.

Through their various expertise they define every healthcare user's experience of care in our healthcare institutions. Their professional vows set them to prioritise the other person than themselves. Support one another.

As a board we would like to salute employee of the hospital, for the service you deliver daily. Healthcare service users may only get to thank the healthcare providers in the frontline, there are heros in the security gates, in the linen rooms, in the laboratory, in the administration offices, in the logistics offices and stores, in the cleaning departments and any other department I may not mention. You are an important piece of the puzzle, when you are not in your position, the overall system feels it. Arise and shine, bright in your corner and embrace your team members.

Dr Sabelile Tenza (Patient Safety Specialist , North-West University, Board member, Witrand Hospital)

Patient safety research tells us that teamwork is critical in patient safety, and that out of all the dimensions of patient safety culture teamwork, communication and leader support are the top contributors to a positive patient safety culture. This suggest that teamwork is a major contributor to prevention of medical errors. It also suggest that the more you look after yourself, you set yourself to best contribute to the quality of the team you are in. Healthy individuals will lead to healthy teams, healthy teams are more ready to contribute to patient safety and quality in healthcare.

teamwork is a major contributor to prevention of medical errors. It also suggest that the more you look after yourself, you set yourself to best contribute to the quality of the team you are in. Healthy individuals will lead to healthy teams, healthy teams are more ready to contribute to patient safety and quality in healthcare.

What can you do to support yourself to be at your best before you get to teams, and to be the best contributor in your team
Have you ever discussed, what makes your team the best team, have you discussed, what obstacles affects the best potential of your team, have you explored how you preserve your energy as a team and how you recharge your energy as a team. What teamwork activities had you started and stopped, what teamwork activities that you would like to revisit. You spend more time at work than at home, unity in diversity is important, it is high time we embrace our flawsome team members and know that their value is in how they complement our own flaws.

I would like to conclude by saying that be your brother's keeper, look after each of your team members, health service delivery is a team effort.

PROVINCIAL OCCUPATIONAL HEALTH AND SAFETY TRAINING

The Provincial Occupational Health and Safety Officers conducted a visit to Witrand Hospital on 24 March 2025, with the purpose of facilitating training sessions on key Occupational Health and Safety (OHS) topics.

Hospital Heads of department during the Provincial Occupational Health and Safety support visit to strengthen key OHS.

Key aspects of Occupational Health and Safety

1. Employer responsibilities: Providing a safe work environment, training, and equipment.
2. Employee rights: Reporting hazards, refusing unsafe work, and participating in OHS committees.
3. Risk assessment and management: Identifying hazards, assessing risks, and implementing controls.
4. Incident reporting and investigation: Reporting incidents, investigating causes, and taking corrective action.

Key aspects of OHS compliances

1. Risk assessments and hazard identification
2. Safe work procedures and protocols
3. Employee training and awareness
4. Personal protective equipment (PPE) usage
5. Incident reporting and investigation
6. Compliance with relevant laws and regulations
7. Regular inspections and audits
8. Employee involvement in OHS decision-making

Key aspects of COIDA

1. Reporting incidents: Employers must report workplace injuries and diseases to the relevant authorities.
2. Compensation benefits: Employees may receive medical expenses, temporary or permanent disability benefits, and death benefits.
3. Eligibility: Coverage typically applies to employees who are injured or contract diseases during the course of their employment.

PROVINCIAL OCCUPATIONAL HEALTH AND SAFETY TRAINING

Provincial Occupational Health and Safety Officers conducted a visit to Witrand Hospital on 24 March 2025.

Recommendations and responses included:

- Exploring alternative referral options for staff uncomfortable with in-house referrals
- Clarification that EAP services should remain free of charge
- Availability of social worker for referrals when Witrand cannot assist

Key aspects of Employee Wellne and Assistance Program

1. Confidential counseling services
2. Stress management and mental health support
3. Substance abuse counseling
4. Work-life balance support
5. Health and wellness resources
6. Referrals to external resources

EWAPs aim to:

1. Improve employee well-being and productivity
2. Reduce absenteeism and turnover
3. Enhance workplace morale and culture
4. Support employees facing personal challenges

Conclusion and Way Forward

The training session was well-attended and provided valuable knowledge on critical OHS topics and employee support systems. However, gaps were identified in the functionality of the internal referral system and communication between supervisors and staff. These issues will be addressed to improve the overall effectiveness of the EAP and OHS systems.

The purpose of Provincial OHS visit was to facilitate training sessions on key Occupational Health and Safety (OHS) topics.

Identified Challenges and Recommendations

The training sessions highlighted several challenges, including:

- Delays in referring staff to EAP services
- need for increase of awareness about EAP services and how to access such services.
- share Internal referral system which is widely accepted
- Staff discomfort with in-house referrals

WITRAND HOSPITAL PHYSIOTHERAPY DEPARTMENT HOSTS SUCCESSFUL COLOR RUN

On February 28, 2025, the Physiotherapy unit at Witrand Hospital organized a vibrant and energetic 5km run/walk event around the hospital premises, themed "#Healthy Lifestyle 2025." The color run was a resounding success, bringing together hospital staff, patients, and community members of all ages and fitness levels in a fun-filled activity. It targeted a diverse audience, promoting unity and physical activity among participants. Several stakeholders also participated, including Avbob, Capital Legacy, Assupol, Sanlam, Spider Cars, and Liberty.

The #Healthy Lifestyle 2025 theme emphasized the importance of regular physical activity and healthy living. Through this event, the Physio department aimed to promote awareness about the benefits of exercise and encourage participants to adopt healthy habits in their daily lives.

Colleagues from different departments showing off their readiness for the exciting colour run.

Colleagues from different departments taking shots of juice after the colour run to reduce the thirst.

Dr I Wana (Center) , along with quality assurance, information and HR employees warming up before the colour run.

The success of the color run is a testament to the Physio department's commitment to promoting health and wellness. As we look to the future, events like these will continue to play a vital role in encouraging healthy lifestyles and building stronger communities.

By prioritizing physical activity and health awareness, we can empower individuals to take control of their well-being and live healthier, happier lives.
